

SHRADDHA GAUTAM

S t u d e n t

PROFILE

Driven and curious Computer Science student at the University of Delhi (Class of 2028) with expertise in AI/ML, data analysis, and full-stack development. Proficient in Python, JavaScript, and modern frameworks, with experience building responsive websites, AI-powered applications, and creative design projects. Recognized for problem-solving, adaptability, and delivering practical, impactful solutions

Career Objective

To secure opportunities that allow me to apply my technical skills and creativity while gaining practical exposure through internships and industry projects. I aspire to contribute to innovative solutions in AI and software development, and gradually advance toward a career in global technology companies where I can drive meaningful impact.
